

## ROBS A MESSENGER WITH THE RAILROADS

**Two Robbers Lock Him in a Chest and Proceed to Ransack Express Car**

Augusta, Ga., May 15.—Two robbers boarded Southern passenger train No. 17 at Warrenville, S. C., ten miles out tonight, got the drop on Express Messenger Hunt, knocked him senseless with a his arms behind his back, took his keys, threw him into an empty express chest, locked him therein, and ransacked the car at will.

The train makes up at Branchville and carries through express and mail from Charleston and Columbia to Augusta. E. C. Barrell, agent of the Southern Express Co. at Augusta, states that the records show that the robbers secured about \$200. The average currency express carried \$2,500 to \$10,000.

The robbers ran into Augusta and left the train on broad street in the center of the city. No one on the train knew of the incident and the robbery was not discovered until the morning. It was liberated at the union station.

Mr. W. F. McClellan, Auditor for the A. and S. A. B. Road, went to Albany this afternoon to look after matters connected with the excursion to Panama City next week.

### "WILD MAN" CAUGHT IN MISSISSIPPI

Pratt, Miss., May 18.—Sheriff John Bond captured in the swamps near here late yesterday a man who has shunned all civilization for the past five years and whose occasional presence in isolated communities near here with his unkempt and almost weird appearance earned for him the title of the "wild man."

He was covered with only scanty portion of ragged garments, his nails were five inches long and his hair and beard reached almost to his waist. He refused to eat cooked food when it was offered to him. He was identified as Marvon Whitehead, whose relatives have long been in search of him. His family is a prominent one in this section.

### RAIN OR SHINE AT ELITE THEATRE

That famous minstrel which we have been hearing so much about it to be pulled off tonight, rain or shine, and if you fail to get it, you will have something to regret for the balance of your days.

Come out and help the boys, anyway, whether you feel like it or not. You will find it a most interesting and profitable evening. The boys have a lot of fun in making it a success. Don't disappoint them.

### LEGAL BATTLE

The High Court of Promises suit was heard today by Judge Adams. The case was heard by Judge Adams and the jury returned a verdict in favor of the plaintiff. The case was heard by Judge Adams and the jury returned a verdict in favor of the plaintiff.

## TO ELIMINATE NEGRO

**Move To Do So Causes Strike Of Firemen On Georgia Railroad**

Atlanta, May 19.—That an organized movement to eliminate negroes as industrial factors in railroad work in the South is under way was the statement made today by Thomas K. Scott, General Manager of the Georgia Railroad.

Last night between fifty and seventy-five white firemen of the Georgia Railroad struck because the road refused to dismiss the negro firemen.

"This strike," said Mr. Scott, "is the first step of a movement which is planned to eliminate the negro as an industrial factor. It is the first step of the Brotherhood of Locomotive Firemen and Enginemen in their plan to drive the negro out of employment on railroads altogether."

The plan is to have a small force of five men. The strike on the Georgia Railroad is just the first step. I have reason to believe that the same demand will be made in some other city or town by officials of the firemen's union upon every other railroad in the South.

The officials of the railroad announce that the strike has not affected the operation of trains in the slightest degree.

### HELD FOR POSTAGE

It is usually a bad business to forward postage to another office to get a letter properly started to you when the postmaster of that place informs you that a letter is there waiting to come to you, but cannot come till a definite amount of money has been sent, and it is equivalent to the corner of the envelope. The postmaster of Chicago, of whom we know nothing, never met him on his way to the city, and he never met the other two on their way to the city, and he never met the other two on their way to the city.

Mr. T. A. Trawick of Abbeville is here visiting his son, Mr. J. T. Trawick.

Mrs. C. M. Ausley of Stomach was here today.

## TO WHOM IT MAY CONCERN

This is to certify that we paid the last two claims in the Houston County Division \$1,000.00 to each beneficiary for the past three years. We have had no trouble so far in maintaining a membership of 1000 in the Houston County Division, and therefore having protection for their families would advise them to take out a policy in this Company. This is undoubtedly the cheapest and best insurance on the market today. Average cost for \$1000.00 Insurance about \$6.00 per year.

Wednesday, May 19, 1909.

One reason why people hate to leave this world so bad as they leave so many good people in it.

We have lost the count. At one time it was no trouble to keep tabs on the choo-choo wagons. We knew every whistle, every exhaust, and knew the makes, and how much they cost. Not so now. We have lost our count. The people are getting so prosperous that an automobile is no object. Several good farmers are now figuring on buying machines. They have all the other good things they like and there is no use in their denying themselves the luxury of an automobile, especially when it can be used for business as well as pleasure.

A north Georgia farmer got up from the supper table, and as he went back into the sitting room, saw a man jump through a window, and not knowing why in the world the man should have jumped out and run like that, made a search, and found that a thousand dollars had been taken from his trunk. This money might have been loaned out to poor kids, might have been invested in an automobile, might have been put in the bank, where a special effort is made to keep money out of the reach of thieves who break through and steal while a man eats his supper.

The New York Herald and the Atlanta Journal conspired together to steam up a lot of automobile interest, and play like they are going to do something toward good road building. They have a car going over the route, and expect to get the people to rake the sand out of the ditches and fill up the "bull-heads" and to do other things to help the automobiles along. No sooner than it was started than a south Georgia good roads movement was put on, with the Constitution backing it. Don't know which way the Georgian will start its good road, but it might lead out toward Alabama, and some of the papers here will meet at the Chattanooga.

## THE LINE FENCE EVIL.

Whiskey has caused more trouble than war, so it is claimed, and if the legislators can fix laws that will lessen its use, it does seem that the same legislators might make some laws that would lessen the line fence evil. We have no recollection as to when the first line fence row started, but it probably started the same year he first man fenced his field, and his neighbor took onto the idea of joining fences. This line fence evil is planting men all over this country. You see about as many newspaper reports of line fence fights that result fatally, as you do from earthquakes, suicides, consumption and other dangerous things. It is time that the lawmakers rise up and do away with the line fence, and drive a stob down, vote in the stock law, or sell the fence. It is a menace to good society; it corrupts good morals, and makes farmers fall out and fight when they really haven't the time to lose from their plowing. It makes the city tweller build wall fences and add dump refuse matter on the lot over the fence. They have the same line fence troubles that the farmers have.

## SPECIAL TERM.

When that famous breach of promise suit is called tomorrow night by Judge Pace, nobody is going to drop out. The whole town has been guessing for several days what it is about, and some have even wagered small sums of money and Stetson had on it being certain couples. They are all wrong.

The suit has been handled well since it was docketed. The litigants displayed good judgment in selecting good legal talent to represent them. As to what judgment they will show in selecting a jury is a matter that will be settled as soon as the case is called tomorrow night. It is thought that many will be called, but few will be chosen; there is but a handful of men in town who are competent jurors in such a case.

Mr. Pugham is to act as sheriff, Mrs. Hunter, Pitt Carls and Dr. Hiliard are to be the witnesses on first one side and then the other.

His honor's choice to the jury is said to be a masterpiece of judgment, while the speeches by the lawyers will go down in the law books on the bench of P. H. H.

The modest, mildly baldheaded defendant's name has leaked in private circles, but so far the case has been managed with such

utmost secrecy that the plaintiff's name remains shrouded in deepest gloom and mystery. She must come into open court though, and testify; she must produce the evidence, and have the lawyers read some of the several hundred love letters from the man who has treated the matter so lightly. Then we will all see who it is, then we can all judge who shall suffer.

Men have been known to quit their work and spend days hanging round the court house, expecting to be summoned on a special venire at any minute, and to this class, we say, beware! If you get caught on this jury you need not fear the others. This jury is to be selected with special care.

## "FOOD"

First, Quality; Second, Preparation; Third, Quantity

In what we eat, Quality is of first consideration, a small quantity of food, of good quality, sustains life, fits us for healthful work, in the mental and physical. Poor quality unfits us for citizenship and makes it difficult for us to be patient in life's conflict.

The preparation of food should be the first well regulated care in every home. Too much cooking is done hurriedly, too much left to the class of servants, who are interested more in what they carry off, than that which goes on the table.

If the quality of the food is wholesome, the preparation given intelligent thought, the appetite will be normal, only such quantity will be taken at each meal, as is required to sustain the body, until the next.

As we are in the medicine business, and if your time is more ingrossed in social, political, religious, and educational life than is wholesome; If you should become effected with modern diseases, we make modern medicines, and would be glad to serve you.

Items of Interest to Women

#### WOMEN OF CHURCH.

The whole trouble is that we will not let God help us.

—George MacDonald

Those who would build high must begin low.

—Mathew Henry

The things that we enjoy write themselves on our characters as surely as the things we do.

—Henry Van Dyke

God bases his rewards not on conspicuousness of service, but on fidelity of opportunity.

—G Campbell Morgan

According to our use or abuse of our opportunity will God judge us. It was the man with the one talent who was condemned.

—Dr. McTear

From faithfulness to faithfulness. The world fights onward through its stress.

Duty the watchword. God the goal.

Art thou of those that build, my soul?

No man ever became great or good, except through many and great mistakes.

—Gladstone

Did you ever hear a breach of promise suit, from start to finish? Now, did you? Don't it appear to you that such a thing could and would be powerfully interesting, conducted by the legal lights of Dothan? At the court house tomorrow evening if you are wise, you will get a treat.

#### A Lovely Benefit Party.

The ice cream party given on the court house lawn by the ladies of the Baptist Missionary Society Thursday afternoon was a social success, socially and financially. It was given as a

benefit, the money to go to Mrs. Floy White, whom we all know and love. There was nearly twenty five dollars received from the sale of cream and cake, and some cake left over which the ladies expect to dispose of.

Mrs. Talay Cotton will entertain the Bachelor Maids Friday afternoon.

Lona Peterman will entertain the D and L Club Saturday afternoon.

They are putting in many screens in the houses in Dothan where the work is proving very satisfactory. They had a man up to figure on the job take the measurements of the openings and then make the screens to fit them. This is a business that ought to do well in Dothan where we have many flies and some mosquitoes all the year most.

#### BEWARE OF THE FLY!

He breeds during the warm months of the year, in filth of the barnyard, in the manure of the stable, in the excrement of the privy, in the decaying garbage at

More than he expected, a man will say when he has been recommended to the DOTHAN STEAM LAUNDRY and has his linen returned with a color and finish on it that makes it look just like new. the kitchen door.

It breeds in the filth of the house, on the soap of the consumptive, on the decaying wounds of men and beasts, on the bodies of dead animals.

He carries the filth from every thing he touches, and may be carried with millions of other germs, germs of typhoid, even to the germs of consumption.

He flies from the privy to the fresh milk on the china plate, from the barnyard to the clean dishes of vegetables on the dinner table, from the spit of the consumptive to the nipple of the baby's bottle, from the garbage can to the lips of the sleeping child, from the dead body to the fresh fruit.

Keep out the fly!
